***Corporations can also consider annual dues as a minimum contribution to the TIA and look for other opportunities to make additional in-kind contributions to help sustain and offset the ongoing operations of TIA.*

Members will have the opportunity to support one or more of the Alliance projects or events. Such contributions will be separately acknowledged by way of branding opportunity.

* In accordance with the Revenue Reconciliation Act of 1993, the Tennessee Infrastructure Alliance has determined that 10% of all dues are non-deductible for federal income tax purposes.*
